CHARLES RIVER
APPAREL®

2021 COLLECTION

As we look forward to the year ahead, we wanted to say thank you for your continued support and dedication to our brand. We recognize 2020 was a challenging year for so many, and our hearts go out to all who have been impacted by coronavirus (COVID-19).

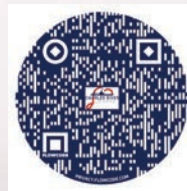

Like many of you, we had to pivot and find new ways to keep our employees and customers safe and connected while also continuing to keep our business moving in the right direction. In addition to supporting our customers and employees, we were also able to donate close to 80,000 masks and 10,000 jackets to those most in need during the pandemic.

We can't predict what the next year may bring but we will do our best to serve you and support our community. As a third-generation family business, we will continue to be here when you need us in 2021 and beyond.

We truly appreciate your business, your friendship, and your trust and look forward to the year ahead.

SIZING DESCRIPTIONS

CLASSIC FIT

Classic fit is our most traditional fit. The style and feel of the garments are based on the ability to layer underneath, as it has a loose and casual look that emphasizes comfort with room to move throughout the chest and waist.

UNISEX FIT

Our unisex fit is made to be worn by anyone. The style and feel of the garments are based on men's sizing; it is oversized, wide through the body, and typically has a drop shoulder. Women would need to size down 1 or 2 sizes in order to get a marketplace fit or a garment that is more true to size.

MODERN FIT

Our modern fit falls between a classic and slim fit. The style and feel of the garments are comparable to current marketplace sizing, which is more fitted through the body. While it's not cut as close to the body as a slim fit, it's narrower than a classic fit.

For more information on sizing and fit, please reference our Fit Guide on page 160.

CHARLES RIVER APPAREL FIT GUIDE

MEASUREMENT GUIDE

CHEST/BUST: Tape measure should be placed under arms. Measure at the fullest circumference around your chest.

WAIST: Measure your natural waistline around the narrowest circumference of your waist.

HIPS: Measure at the fullest circumference around your hips.

SLEEVE LENGTH: With elbow bent slightly, measure from center back of your neck, over the shoulder, over to the slightly bent elbow and down to the outer wrist.

INSEAM: Stand and measure the line where the two parts of a pair of pants are sewn together (top of the inside of the leg) to the bottom of your ankle bone.

These sizes and body measurements are intended as a guide to assist with sizing – these are not exact garment measurements. Locate your measurements below, and the chart will tell you the approximate Charles River Apparel size you should fit into. Style specific measurements can be found on our product spec sheets, which are available to download on every product detail page on our website.
