HOW TO MEASURE YOUR BODY

- A — CHEST:** Measure around the fullest part, keeping the measuring tape horizontal.
- B — WAIST:** Measure around the narrowest part of waist (typically the small of your back and where body bends side to side), keeping the measuring tape horizontal.
- C — HIPS:** Measure around the fullest part of your hips, keeping the measuring tape horizontal.
- D — SLEEVE LENGTH:** With arm relaxed at side and slightly bent, measure from the center back neck, across shoulder to elbow, and down to wrist.
- E — INSEAM:** Measure from the top of your inner leg along the inside seam to the bottom of your leg.
- F — NECK (MEN):** Measure around the base of your neck.

CHOOSING THE RIGHT SIZE

If your body measurements for chest, waist, and hips result in different suggested sizes, order the size that corresponds to your chest measurement for tops and waist measurement for bottoms. If your body measurement is between two sizes, order the smaller size for a tighter fit and the larger size for a looser fit.

EXTENDED SIZES

Our general size range for women is XS-3XL and for men is S-4XL, with many styles offered in additional big and tall sizes (denoted on the style pages). Upcharge applies to extended sizes 3XL-5XL & LT-3XLT.

Visit our website for specific measurements by style.

Because of variations in light and use, garment colors in this catalog may not be exact. Fabric swatches are also available upon request.
