## Product. Process. Purpose.

### SUSTAINABILITY AT LAT APPAREL

Sustainability is an ongoing mindset at LAT Apparel.

It's not just about individual products, but also the processes employed and sustainable practices in the communities in which we work. As technology continues to evolve, we will continue to innovate ways to support our practice of sustainable manufacturing.

### Product.

LAT Apparel is proud to offer products with sustainable features along with our continued commitment to long-term development of sustainable materials and products.

### **INFANT BODYSUITS**

- Innovative YKK snap tape closure made with 97% Post-Consumer Recycled Polyester (rPET).
- By switching to recycled polyester snap tape, LAT Apparel will save over 672,000 plastic bottles from landfills each year.

SNAP TAPE CLOSURE

### Process.

LAT Apparel continues to implement new processes throughout our supply chain to reduce our carbon footprint and promote a more circular economy.

### FACTORIES

- Indian factories are utilizing 65% 80% renewable energy from wind or solar with goal of increasing to 80% across all facilities in next 12 months.
- Mexico spinner and dyehouse is now using 99% renewable energy from solar and geothermal energy.
- Continued push and incentives throughout our supply chain to switch to renewable energy.

### DYEHOUSES

- Dyehouse recycling programs recapture 90% 99% of the water used to be reused in production. Remaining water is treated so it can be used in agricultural settings.
- Updated dyeing equipment continues to be installed in both India and Guatemala. Newer dyeing equipment reduces chemical usage by at least 40% and water usage by at least 50% in addition to energy savings of up to 35 kWh per dye lot.

### MATERIALS

- To reduce the environmental impact of shipping, raw materials are sourced as close to our factories as possible.
- Yarn is spun and fabric is knitted and dyed in the same locality as our factories.
- Raw material waste throughout the production process is either recycled, utilized throughout the facility or sold into the local market to be turned into new products like floor mats or screens.

### DISTRIBUTION

- At our corporate headquarters and distribution facilities, we are reducing our electrical usage by up to 25% through the use of motion sensor automated lighting.
- Our warehouses feature a paperless pick/pack system diverting tons of waste from local landfills.
- We have recycling programs for our cardboard and office supplies.

### Purpose.

Sustainability is not just about the environment but also sustainable community development. Here at LAT, we support the communities we do business in through a variety of give back initiatives along with 3rd party certifications to ensure a good working environment.

- All factories are WRAP (Worldwide Responsible Accredited Production) certified to ensure ethical and safe facilities for our production.
- 2% of all Code Five sales are donated to Children of Fallen Soldiers Relief Fund, Inc., and Fisher House<sup>™</sup>. Over \$1,200,000 in donations made to these 2 organizations!
- Wearable irregulars and seconds are donated instead of sold into the marketplace. This prevents the dumping of low-cost goods which drives down market value, harming long-term wage sustainability throughout the entire industry.
- Annual free vaccine programs both locally and at factories throughout our supply chain where needed, to ensure everyone can stay healthy.
- Annual community givebacks including
  - Donations collected for various shelters
  - 100 bikes donated each Christmas to local families
  - Factory support of local schools
  - Providing the apparel for the annual Bert's Big Adventure trip to Disney.

## Pad Printing.

### PAD PRINTING OFFERS AN INVALUABLE SOLUTION FOR SCREEN PRINTERS LOOKING TO SAVE TIME AND MONEY WITHOUT COMPROMISING ON QUALITY.

This versatile printing technique is ideal for personal branding. The efficiency of pad printing lies in its ability to achieve high-speed production runs with minimal setup time, significantly reducing labor costs. Additionally, pad printing requires less ink per print compared to traditional screen printing, resulting in lower material costs and less waste. This combination of speed, versatility, and cost-efficiency makes pad printing an attractive option for businesses aiming to enhance their printing capabilities while optimizing their operational expenses.

## Vintage Wash.

OUR VINTAGE WASH DRAWS ITS INSPIRATION FROM THE NOSTALGIC CHARM OF YESTERYEARS.

Created to induce a sense of warmth and comfort, it mirrors the aesthetics of old-world craftsmanship combined with the durability of modern-day fabrics. The unique wash technique used produces a worn, distressed look, reminiscent of garments that have endured adventures and withstood the test of time. Thus, the Vintage Wash assortment is designed to evoke not just a visual appeal, but also a feeling of cherished memories and treasured past times.
